

Group Tasks:

- 1. Differing Objectives and Priorities:**
 - Each group should list their personal objectives and priorities for the project.
 - Think potential conflicts arising from these differing objectives between the groups.
 - How can the groups find common ground and personal compromise(solution)?
 - 2. Decision-Making Challenges:**
 - Discuss and outline the key decisions that need to be made during the project (e.g., renovation budget, design choices, marketing strategy).
 - How will these decisions be made between the groups?
 - 3. Communication and Coordination Barriers:**
 - Identify potential communication and coordination challenges between Group A and Group B members.
 - Develop a communication plan outlining how information will be shared and how meetings will be conducted.
 - How will the groups resolve disagreements on site and within the group?
 - 4. Loss of Control:**
 - Discuss how each group might feel they are losing control over aspects of the project.
 - How can they mitigate this and ensure both groups feel adequately involved and that each group is personally happy with the outcome?
 - 5. Profit-Sharing Disputes:**
 - Develop a profit-sharing model that addresses the different contributions and risks taken by each group.
 - Discuss how potential disputes over profit distribution will be resolved between the groups.
 - 6. Exit Strategy Complications:**
 - Outline potential exit strategies for both groups.
 - Discuss how a potential disagreement on the exit strategy could impact the project and personal relationships.
 - Can one group buy the other out?
 - 7. Liability Exposure:**
 - How will liability be shared between the two groups?
 - What insurance will be needed?
- A presentation to the class outlining your joint venture agreement and strategy for the property.
